

**AN IMPORTANT MESSAGE TO ALL
REGARDING PRIVACY**

My dear friends in Christ, one of the tenets of the Christian Family, is the adherence to ethical behaviour. After recent activity within the Resurrection Reflection Group, I feel it necessary to clarify our stance on particular actions.

When people join our groups, it is for the specific reason the group was set up for and not intended to be used to spam the contact lists. Peoples contact details are private and are only shared by an individual at their sole discretion.

To all members of the group, I would suggest using the 'PRIVACY' option provided by WhatsApp. This will prevent your contact details from being misused (spammed). I have attached a document you can use to navigate this function.

I pray God's richest blessing upon you all.

How to hide your mobile number on your WhatsApp Groups.

1. Open the WhatsApp application on your Android or iPhone. 
2. Open the settings function. 
3. Select the 'Account' option.
4. Select the 'Privacy' option.
5. You will see five options:
 - a. Last Seen
 - b. Profile Photo
 - c. About
 - d. Groups
 - e. Status
6. Select the 'About' option and you will be given the option to select: 1. Everyone, 2. My Contacts, or 3. Nobody.
7. Select the option you wish.
 - a. **Everyone:** if you select the Everyone option, then everyone will be able to see your **WhatsApp number in WhatsApp groups.**
 - b. **My Contacts:** if you select My Contacts, then every person which is added to your contact list will be able to see your number in WhatsApp groups.
 - c. **Nobody:** and the last option is Nobody, if you select Nobody, then nobody will be able to see your WhatsApp number, whether they are in your contacts or not.
8. Do the same for 'Groups' and 'Status', should you so wish.
